PRODUCT SHEET

## PLUG & PLAY USB HANDSET SOLUTION OPTIMIZED FOR MICROSOFT OFFICE COMMUNICATOR

- True wideband audio performance for professional sound quality
- Intuitive, plug-and-play usability
- Dedicated answer/end and mute buttons for seamless integration with Microsoft Office Communicator 2007
- LCD display showing numbers dialed

The Jabra DIAL™ 520 OC delivers professional performance and great value. It's the cost-effective USB handset solution optimized for Microsoft Office Communicator. With an easily recognizable user interface, it is the ideal product for every type of Office Communicator user. Through its seamless integration with the audio features in Microsoft Office Communicator it is possible to truly reap the benefits of IP telephony.

Through its resemblance to well-known phones the Jabra DIAL™ 520 OC is a sure way to migrate users onto IP telephony. Its plug & play capabilities ensure that even the very first call is easy to make – simply connect the handset and use it like any other dialpad based phone. Due to the portability of Jabra DIAL™ 520 OC, the product is equally applicable for office-based and home-based professionals. And its small size and slim design make it convenient to bring along.

Jabra DIAL™ 520 OC fulfills the communication needs of the majority of office professionals and its seamless integration with Microsoft Office Communicator will maximize productivity and simultaneously minimize the total cost of ownership.
